15TH ACFIF CONFERENCE 2026

Hosted by:

MTMA

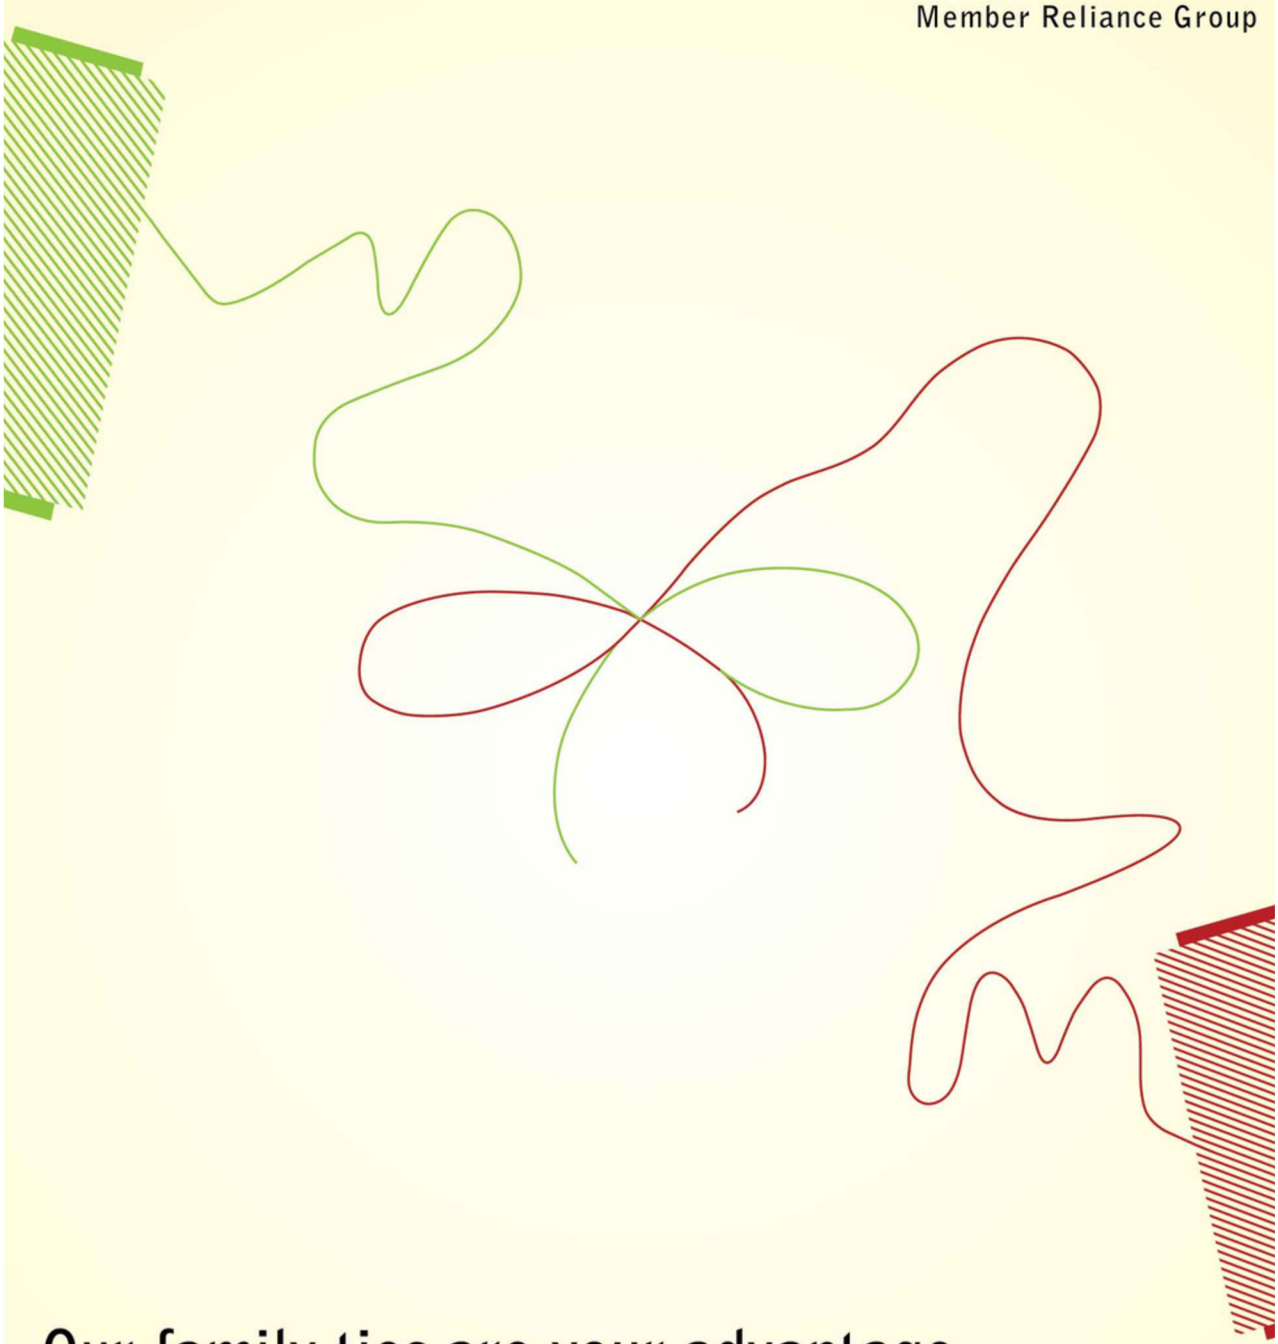
Malaysian Textile Manufacturers Association

"GREENING THE SUPPLY CHAIN: SUSTAINABLE PRACTICES FOR THE FUTURE"

14 - 15 MAY 2026

PENANG MARRIOTT HOTEL, MALAYSIA

Recron
Malaysia Sdn Bhd
Member Reliance Group



Our family ties are your advantage.

Recron Malaysia is a part of Reliance Industries, world's largest integrated polyester producer. Along with this association, comes a host of resources that will help us serve you better. Like the fully integrated supply chain from crude oil to textiles, cutting-edge R&D, customised services, and most importantly, our global network. So go ahead and make the most of Recron Malaysia, the advantage is all yours.

Recron (Malaysia) Sdn. Bhd. (Company No. 781769-K)
Level 7 & 8, Wisma Goldhill, 67, Jalan Raja Chulan, 50200, Kuala Lumpur, Malaysia.
Tel: 603-2031 6000. Fax: 603-2031 5000 | www.recronmalaysia.com

MESSAGE

Chief Minister of Penang (Malaysia)

The Right Honourable YAB Tuan Chow Kon Yeow

On behalf of the State Government of Penang, it is my great pleasure to welcome all delegates to the 15th ACFIF Conference. We are honoured to host this distinguished gathering of the Asian Chemical Fiber Industries Federation (ACFIF), bringing together industry leaders, technical experts, and strategic partners from across Asia and beyond.

This conference takes place at a pivotal juncture for the global textile and man-made fiber sector. As industries respond to climate imperatives, resource constraints, and evolving sustainability standards, the transformation of supply chains has become increasingly urgent. The theme, "Greening the Supply Chain: Sustainable Practices for the Future," reflects a shared direction towards greater innovation, resilience, and responsible production across the value chain.

ACFIF continues to play an important role in strengthening regional cooperation and advancing industry progress. As Asia remains central to global manufacturing and supply chains, platforms such as this are vital in aligning priorities, sharing best practices, and accelerating the transition towards a more sustainable and competitive industry ecosystem.

For Penang, these priorities align closely with our Penang2030 Vision of becoming a smart, green, and inclusive state. As a key manufacturing and export hub, our growth is driven by high-value industries, skilled talent, and strong infrastructure. We remain committed to advancing sustainable development, where economic progress and environmental responsibility go hand in hand.

We deeply appreciate the confidence placed in Penang as the host of this conference, and trust that this gathering will provide a meaningful platform for constructive dialogue and fruitful engagement. I am confident that the exchanges and partnerships forged here will generate lasting outcomes for the industry.

Beyond the conference, I invite our international guests to experience the unique character of Penang – a UNESCO World Heritage Site renowned for its rich cultural heritage and world-class cuisine. We hope your stay here will be both productive and memorable.

I wish all delegates a successful and impactful conference, and that it will inspire meaningful dialogue, enduring partnerships, and continued progress towards a more sustainable and resilient textile industry.

The Right Honourable YAB Tuan Chow Kon Yeow

MESSAGE

Minister of Entrepreneur and Cooperatives Development (Malaysia)

The Honourable YB Tuan Steven Sim Chee Keong

It is a profound honour to welcome the distinguished leaders, entrepreneurs, and global partners gathered for the 15th ACFIF Conference. Malaysia is privileged to host this esteemed assembly of the Asian Chemical Fiber Industries Federation, a platform that continues to shape the global man made fiber industry through collaboration, technological advancement, and shared vision.

The theme of this year's conference, "Greening the Supply Chain: Sustainable Practices for the Future," is both timely and transformative. Sustainability has become a defining pillar of global competitiveness, influencing investment flows, consumer expectations, and industrial strategy. Within Malaysia's national development agenda, the Government remains committed to building an economy that is innovative, resilient, and aligned with international ESG standards.

Since 2015, Malaysia, together with 192 world leaders, has committed to the 2030 Agenda for Sustainable Development at the United Nations General Assembly. As of 2024, Malaysia has achieved 43 per cent of all 248 indicators of the latest Sustainable Development Goals, exceeding the global average of 17 per cent.

For the chemical fiber and textile sectors, this transition opens new pathways for circular business models, green technology adoption, and the integration of SMEs into higher value global supply chains.

As the Minister of Entrepreneur and Cooperatives Development, I am dedicated to strengthening an ecosystem where established industrial players and emerging enterprises can grow together. We support MSMEs and cooperatives through capacity building, financing facilitation, digitalisation initiatives, and innovation driven development, ensuring that Malaysian entrepreneurs are equipped to participate meaningfully in sustainability aligned industries.

Malaysia is home to a diverse network of industrial parks that support advanced manufacturing and innovation. Among these, Penang stands as one of the nation's most dynamic hubs, with its industrial landscape anchored by the advanced manufacturing zones of Bukit Minyak, Batu Kawan, and other key industrial areas within the state. These parks have matured into vibrant, innovation driven corridors that serve not merely as production sites, but as platforms for co creation, technology transfer, entrepreneurial development, and SME participation in global supply chains.

I am honoured that this conference is being held in my birth state of Penang. I warmly encourage delegates to explore Penang's industrial parks and experience first hand the dynamism of Malaysia's manufacturing and entrepreneurial landscape. Over the past 50 years, Penang has transformed remarkably from low value added industries into a high value semiconductor powerhouse, known as the Silicon Valley of the East. In 2023 alone, Penang contributed a staggering RM41.14 billion, amounting to a 32% share of Malaysia's exports, and attracted RM71.9 billion in investments.

Conferences such as this provide an exceptional platform for meaningful engagement, an opportunity to exchange insights, explore cross border ventures, and forge partnerships that will strengthen the global fiber industry.

I commend the organisers for their vision and dedication in convening this important event. May the conversations and collaborations formed here inspire new ventures, catalyse innovation, and guide the global fiber industry towards a more sustainable, entrepreneurial, and prosperous future.

The Honourable YB Tuan Steven Sim Chee Keong

MESSAGE

Deputy Minister of Investment, Trade and Industry (Malaysia)

The Honourable YB Tuan Sim Tze Tzin

It is my profound honour to extend my warmest welcome to all distinguished delegates, industry leaders, and members of the Asia Chemical Fiber Industries Federation (ACFIF) attending the 15th ACFIF Conference 2026. On behalf of the Ministry of Investment, Trade and Industry (MITI), it is a particular honour that Malaysia — through its national association member, the Malaysian Textile Manufacturers Association (MTMA) — has been entrusted with the ACFIF Chairmanship for the 2026–2028 term, a responsibility undertaken with the highest sense of duty and appreciation for its regional significance. Malaysia is privileged to host this distinguished assembly in Penang, and to contribute leadership at a pivotal moment for the industry.

The ACFIF membership — comprising China, India, Indonesia, Japan, Korea, Malaysia, Pakistan, Chinese Taipei, and Thailand — constitutes the principal engine of global chemical fibre production. Collectively, this community shapes the standards, sustainability frameworks, and technological pathways that underpin global value chains. The Conference theme, *"Greening the Supply Chain: Sustainable Practice for the Future,"* is both timely and consequential. Circularity, decarbonisation, and alignment with emerging regulatory frameworks — including digital product traceability and sustainability disclosures — have become defining determinants of long-term competitiveness. ACFIF therefore serves as an indispensable platform for member economies to strengthen alignment, exchange strategic intelligence, and advance a coherent and forward-looking regional response.

This agenda is fully aligned with Malaysia's industrial priorities under the New Industrial Master Plan 2030 (NIMP 2030) and the National Energy Transition Roadmap (NETR). Under NIMP 2030, the chemical sector is designated a priority sector, reflecting its strategic role within the national value chain. Together, these frameworks position Malaysia's chemical fibre and textile industries at the intersection of four NIMP 2030 missions — advancing economic complexity, accelerating digital transformation, driving the transition toward Net Zero, and strengthening inclusive industrial resilience. These sectors are recognised as foundational enablers of downstream industries ranging from apparel and home textiles to medical textiles, automotive components, and advanced industrial applications.

The Honourable YB Tuan Sim Tze Tzin

MESSAGE

Outgoing Chairman of ACFIF (KCFA)

Mr. Kim Sukhyun

Distinguished Chairs, Esteemed Delegates, and Honored Guests,

It is a profound privilege to join you all in the beautiful and vibrant city of Penang, long celebrated as the "Pearl of the Orient," for the 15th ACFIF Conference.

First and foremost, I wish to extend my sincerest gratitude to Chairperson, Regina Leong and the Malaysian Textile Manufacturers Association (MTMA) for their warm invitation and for the impeccable organization of this significant gathering.

The past two years have been a period of unprecedented volatility. Our industry has navigated a complex landscape marked by global overcapacity, stringent environmental mandates, and intensifying geopolitical tensions. The rise of New Protectionism has fundamentally shifted the global trade paradigm, making uncertainty a constant challenge in our strategic endeavors.

Yet, in the face of these trials, the resilience shown by our member nations has been extraordinary. Rather than being deterred by these external pressures, we have embraced them as a catalyst for a new leap forward. Through unwavering dedication to technological innovation and a steady transition toward a green paradigm, we have proven the indomitable strength of the Asian chemical fiber industry. I offer my deepest respect to the entrepreneurs and leaders who have steadfastly protected the foundations of our industry during these demanding times.

The theme of this conference, "Greening the Supply Chain: Sustainable Practice for the Future," perfectly captures the essential strategy for our collective survival and prosperity. We have reached a pivotal inflection point where competitiveness is no longer defined solely by scale or price, but by our ability to integrate sustainability into the very core of our industrial ecosystem.

Advancing our industry through eco-friendly innovation is not merely an option; it is a fundamental necessity for our future. Greening the entire value chain from raw material sourcing to manufacturing and distribution is the most effective way to secure a competitive edge in the evolving global market. I am confident that the insights shared during this conference will provide us with a clear and practical roadmap for this critical transition.

As the chairmanship of the Federation passes to Chairperson Regina Leong, I express my full confidence in her leadership and vision. In these times of heightened global uncertainty, I respectfully call upon all member nations to extend their steadfast support and cooperation to our new Chairperson.

Asia remains the heart of the global chemical fiber industry. When we uphold the spirit of solidarity and practice the "Way of Mutual Prosperity," our federation will continue to serve as a preeminent global platform, leading the sustainable evolution of our industry.

As I conclude my term as Chairman, I look forward to continuing our journey together, remaining deeply committed to the collective success of the Asian chemical fiber industry.

I am profoundly grateful for the trust and partnership you have shown me throughout my tenure, and I wish the ACFIF and all its members continued innovation, strength, and boundless prosperity.

Thank you very much.

Mr. Kim Sukhyun
Chairman, Korea Chemical Fibers Association (KCFA)

MESSAGE

Incoming Chairman of ACFIF (MTMA)

Ms. Regina Leong

It is my distinct honour to extend a warm welcome to all delegates, distinguished speakers, esteemed sponsors, and honoured guests at the 15th Asian Chemical Fibre Industries Federation (ACFIF) Conference, taking place from 13 to 15 May 2026 in Penang, Malaysia.

Malaysia is privileged to host this prestigious biennial conference for the second time. We are deeply honoured by the presence of participants from across the region; your engagement reflects the continued strength of collaboration within Asia's chemical fibre and textile community. Your participation underscores ACFIF members' shared commitment to advancing the industry's strategic development and collective competitiveness.

The theme of this year's conference, "Greening the Supply Chain: Sustainable Practice for the Future", is both timely and essential. Sustainability has become a central pillar of global industrial transformation, and the chemical fibre sector—positioned at the upstream foundation of the textile value chain—plays a decisive role in shaping the industry's future direction. As environmental expectations, regulatory frameworks, and market requirements evolve, our region must continue to demonstrate leadership in responsible production, innovation, and long term resilience. This upstream industry is vital in driving innovation, strengthening supply chain stability, and supporting the growth of downstream manufacturing. With a stronger upstream foundation, we can better move up the value chain and remain competitive in the global marketplace.

This conference provides an important platform for the exchange of knowledge, the sharing of best practices, and the strengthening of regional cooperation. I trust that the discussions and engagements over the coming days will generate valuable insights and foster partnerships that support our collective transition towards a more sustainable and future ready industry.

This year also marks a significant milestone for MTMA and Malaysia as we prepare to assume the ACFIF Chairmanship for the 2026–2028 term. We are deeply humbled by the confidence placed in us and remain fully committed to upholding the Federation's objectives with integrity and dedication. In this capacity, we look forward to working closely with all member associations to strengthen regional collaboration, enhance industry competitiveness, and elevate the Asian chemical fibre sector towards shared prosperity and long term growth. As we undertake this important responsibility, we respectfully seek your continued support, partnership, and collective wisdom.

I also wish to record my sincere appreciation to all sponsors, supporting organisations, speakers, and partners for their invaluable contributions. Your support has been instrumental in the successful organisation of this conference and in advancing ACFIF's mission.

To all delegates, I extend my best wishes for a productive and enriching conference. I also hope you will take the opportunity to experience the hospitality, cultural heritage, and unique charm of Penang.

Thank you.

Ms. Regina Leong
President, Malaysian Textile Manufacturers Association (MTMA)

MESSAGE

Honorary President of MTMA

The Honourable Dato' Sri Tan Thian Poh

It is with immense pride and gratitude that I welcome all distinguished delegates to the 15th ACFIF Conference here in Malaysia. As the Honorary President of the Malaysian Textile Manufacturers Association (MTMA), I am deeply honoured to be a part of this esteemed gathering and to share in the collective vision of the Asian Chemical Fiber Industries Federation (ACFIF). For MTMA, hosting the 15th ACFIF Conference marks a significant milestone. This is only the second time Malaysia has been given the honour of organising this prestigious international event, a testament to our nation's commitment to the progress of the global textile and fiber industry.

Over the years, I have had the privilege of serving MTMA and witnessing the evolution of our industry through periods of growth, challenge, and transformation. It is deeply gratifying to see our association continue to strengthen its mission and renew its dedication to serving the industry with excellence, integrity, and innovation.

The conference theme, "Greening the Supply Chain: Sustainable Practices for the Future," captures the essence of the transformation our industry must embrace. Sustainability is no longer an optional pursuit—it is the foundation of future competitiveness, resilience, and global relevance. I believe the chemical fiber sector has both the potential and the obligation to become truly green, adopting practices that are economically viable, environmentally regenerative, and safe for our shared future. This conference reflects our collective commitment to that transformation.

The challenges before us—volatile supply chains, shifting consumer expectations, evolving regulatory landscapes, and the urgent need for sustainable transformation—demand courageous leadership and innovative thinking. Yet within these challenges lie extraordinary opportunities. The delegates gathered here bring invaluable experience and a collaborative spirit essential for navigating this transition. The dialogues and partnerships forged over the coming days will illuminate new pathways forward, demonstrating how we can lead our industry with purpose, integrity, and vision, even in times of uncertainty.

On behalf of MTMA, I would also like to extend our deepest appreciation to our sponsors and partners. Your generous support has made this conference possible and has enabled us to deliver a meaningful and impactful programme. Your commitment to the industry and your belief in the importance of regional collaboration have been instrumental in bringing this event to life. We are sincerely grateful for your partnership on this journey.

I am equally delighted to extend heartfelt congratulations to our current MTMA President, Ms Regina Leong, whose dedication and leadership have been central to the success of this conference. Her vision, tireless effort, and unwavering commitment have not only brought this event to fruition but have also begun shaping a renewed direction for MTMA. Her leadership exemplifies the forward looking spirit our industry needs at this pivotal moment.

We trust that the discussions, collaborations, and connections formed during these three days will prove invaluable to your organisations and to our industry as a whole. May this conference be a source of inspiration, knowledge, and meaningful partnership. As you return to your home countries, I hope you carry with you renewed vision, strengthened resolve, and fresh pathways forward. Together, let us discover and demonstrate new ways of leading our industry—ways that honour both prosperity and responsibility, that balance growth with stewardship, and that secure a thriving, sustainable future for the chemical fiber industry and for our planet.

The Honourable Dato' Sri Tan Thian Poh

MESSAGE

Chairman of 15th ACFIF Conference Steering Committee

The Honourable Dato' Teh Hock Soon

On behalf of the Organizing Committee, it is my pleasure to welcome you to the beautiful island of Penang for the 15th ACFIF Conference. We are delighted to host distinguished delegates, industry leaders, innovators, and partners from across the region and beyond, united in advancing sustainability and circularity in the chemical fiber supply chain.

The global chemical fiber industry stands at a pivotal crossroads. While long-term growth remains strong, it faces a complex and volatile landscape. Heightened geopolitical tensions, shifting trade alignments, and protectionist policies are reshaping global commerce and adding uncertainty. At the same time, supply chain disruptions—from logistics bottlenecks to resource security—are prompting a rethinking of sourcing strategies and production networks. These dynamics are compounded by evolving regulatory frameworks, regionalisation trends, and rapid digital transformation.

In parallel, rising expectations for environmental stewardship demand a rethinking of traditional models and an accelerated shift toward sustainable, circular solutions. Balancing resilience, competitiveness, and sustainability is now imperative. As an industry embedded in global value chains, it must strengthen its ability to adapt, collaborate, and innovate to effectively respond to these pressures.

Against this backdrop, this conference is especially timely. Through presentations, discussions, and networking, it offers a valuable platform for dialogue. May it inspire candid insights, forward-looking ideas, and practical strategies to strengthen resilience, navigate geopolitical complexities, and elevate the industry. Together, we can harness technology, collaboration, and responsible practices to ensure growth and sustainability go hand in hand.

Beyond the conference, I encourage you to experience Penang's rich culture, renowned cuisine, and warm hospitality. May your time here be both professionally rewarding and personally memorable.

Thank you for your participation and commitment. Wishing you a productive conference with engaging discussions, new partnerships, and valuable takeaways—and an enjoyable stay in Penang.

The Honourable Dato' Teh Hock Soon
Toray Industries (Malaysia) Sdn Bhd

ABOUT ACFIF CONFERENCE

The ASIAN Chemical Fiber Industries Federation (ACFIF) is the leading regional platform representing and advancing the chemical fiber and related textile industries across Asia and its partner economies. Established to strengthen collaboration and promote industry excellence, ACFIF plays a central role in connecting key players across the sector.

The Federation brings together stakeholders ranging from raw material producers to global retailers, creating an end-to-end sustainability dialogue that addresses the environmental, social, and economic dimensions of the value chain. This inclusive approach enables the industry to work collectively on shared priorities, from improving production efficiency and resource management to advancing sustainable practices and enhancing market competitiveness.

Through high-level conferences, specialized technical exchanges, training programs, and collaborative projects, ACFIF provides valuable opportunities for industry leaders to share best practices, explore cutting-edge innovations, and align strategies for sustainable growth. The Federation also works closely with policymakers, trade associations, research institutions, and international partners to help shape industry standards, promote responsible sourcing, and ensure that ASIA remains a dynamic and competitive hub in the global chemical fiber market.

With a broad and diverse membership base, a deep understanding of industry challenges, and a steadfast commitment to sustainability, ACFIF is uniquely positioned to influence the direction of the chemical fiber sector. By fostering collaboration, innovation, and long-term resilience, the Federation helps ensure that the industry remains forward-looking and aligned with global sustainability goals.

Conference Theme

The ACFIF Conference promotes regional collaboration within the chemical fiber industry, focusing on shared challenges, innovation, and sustainability to strengthen Asia's position in the global textile value chain.

This year's dual-focus approach examines the entire value chain from raw material sourcing to retail with the aim of transforming traditional supply chains into environmentally responsible systems. The conference will explore sustainable fiber supply chains with a focus on:

- Innovation and digitalization
- Circular economy models
- Trade cooperation
- Sustainable manufacturing

"Greening the Supply Chain: Sustainable Practices for the Future"

This conference focuses on transforming traditional supply chains into environmentally responsible systems that deliver both ecological benefits and business value. As climate change, resource scarcity, and consumer activism intensify, organizations across industries must reengineer their supply chain practices to reduce environmental impact while maintaining competitiveness.

The conference will specifically address two complete chemical fibers supply chains: one serving industrial applications and the other serving clothing and related consumer markets. This dual-focus approach examines the entire value chain, from raw material sourcing and fibers manufacturing to textile processing, product fabrication, and ultimately to industrial users, brand owners, and retailers who bring these products to market. This comprehensive framework recognizes that sustainability requires coordination among all stakeholders, including chemical companies, fibers producers, fabric mills, manufacturers, fashion and home textile brands, industrial product developers, and retail partners.

The conference will explore innovative strategies, technologies, and partnerships that enable companies to build truly sustainable supply chains capable of meeting future environmental challenges and regulatory requirements. Special attention will be given to transparency initiatives, circular economy models, and collaborative approaches that connect upstream manufacturing processes with downstream applications in both industrial and consumer contexts, creating holistic sustainability solutions across the entire chemical fibers value chain.

CONFERENCE PROGRAM

DATE: 14 MAY 2026, THURSDAY **TIME: 8:30 AM - 20:30 PM**

TIME	PROGRAM
08:20 - 09:30	Registration of Delegates Arrival of Guest of Honor and VIP's
09:30 - 09:45	**Official Ceremony** **Opening Announcement by Emcee** **Announcing Nomination of the Incoming Chairman of ACFIF** • Ms. Regina Leong, President of Malaysian Textile Manufacturers Association **Announcing Nomination of the Incoming Vice Chairman of ACFIF** • Mr. Rizwan Afzal Chaudhry, Chairman of Polyester Staple Fibre Manufacturers Group **Announcing Nomination of the Incoming Secretary General of ACFIF** • Ms. Hasnah Ahmad, Secretary General of Malaysian Textile Manufacturers Association
09:45 - 10:00	**Welcoming and Opening Speech by Incoming Chairman of ACFIF** • **Ms. Regina Leong, President of Malaysian Textile Manufacturers Association** **Opening Remarks by The Honourable Dato' Sri Tan Thian Poh, Honorary President of MTMA**
10:00 - 10:05	**Introduction of Heads of Delegates and Distinguished Guests**
10:05 - 10:45	**Opening Ceremony by Malaysia** **Speech by The Honourable YB Tuan Sim Tze Tzin, Deputy Minister of Investment, Trade and Industry (Malaysia)** **Keynote Address by The Honourable YB Tuan Steven Sim Chee Keong, Minister of Entrepreneur and Cooperatives Development (Malaysia)** Launching Gimmick Presentation of Token of Appreciation Photography Session
10:45 - 11:00	COFFEE BREAK
11:00 - 11:15	**Speech by Outgoing Chairman of ACFIF** • **Mr. Kim Sukhyun, Chairman of Korea Chemical Fibers Association**
11:15 - 11:45	Country/Region Presentation • **China by China Chemical Fibers Association, Mr. Song Xiquan, President of Tayho Advanced Materials Group** • **India by Association of Synthetic Fibre Industry, Mr. Pinaki Ranjan Das, Secretary General of Association of Synthetic Fibre Industry**
11.45 - 11.50	Q&A
11:50 - 12:20	Country/Region Presentation • **Indonesia by Indonesian Fiber and Filament Yarn Makers Association, Mr. Redma Gita Wirawasta, Chairman of Indonesian Fiber and Filament Yarn Makers Association** • **Japan by Japan Chemical Fibers Association, Mr. Kazushige Sakamoto, Managing Executive Officer of Kuraray Co., Ltd**
12:20 - 12:25	Q&A

CONFERENCE PROGRAM

DATE: 14 MAY 2026, THURSDAY **TIME: 8:30 AM - 20:30 PM**

TIME	PROGRAM
12:30 - 13:00	Country/Region Presentation • **Korea by Korea Chemical Fibers Association, Mr. Kim Jingyu, Vice Chairman of Korea Chemical Fibers Association** • **Pakistan by Polyester Staple Fibre Manufacturers Group, Mr. Rizwan Afzal Chaudhry, Chairman of Polyester Staple Fibre Manufacturers Group**
13:00 - 13:05	Q&A
13:05 - 14:30	**LUNCH**
14:30 - 15:15	Country/Region Presentation • **Chinese Taipei by Taiwan Man-Made Fiber Industries Association, Mr. Kevin Juang, Vice Chairman of Taiwan Man-Made Fiber Industries Association** • **Thailand by Thai Man-Made Fiber Industries Association, Mr. Chen Namchaisiri, Chairman of Thai Man-Made Fiber Industries Association** • **Malaysia by Malaysian Textile Manufacturers Association, Ms. Hasnah Ahmad, Executive Director Malaysian Textile Manufacturers Association**
15:15 - 15:25	Q&A
15:25 - 15:35	COFFEE BREAK
15:35 - 15:50	**SPECIAL PRESENTATION** **By: Industry Development Division, Ministry of Investment, Trade and Industry (Malaysia)**
15:50 - 16:05	**SPECIAL PRESENTATION** **"PETRONAS CHEMICALS GROUP : LEADING GROWTH IN GLYCOLS"** **By : Ms. Nur Fadhlin Ali, Head of Marketing, PETRONAS Chemicals Marketing Labuan Ltd, Malaysia**
16:05 - 16:40	**SPECIAL AGENDA –** **"Is Recycling the Best Path to a Sustainable Fiber Supply Chain?"** Moderator : Mr. Gunjan Sharma, CEO of Recron Malaysia Sdn Bhd Panelists: 1. Mr. Chen Namchaisiri, Chairman of Thai Man-Made Fiber Industries Association, Thailand 2. Mr. James Kuo, Chairman of Taiwan Textile Federation, Chinese Taipei 3. Mr. Sanjay Mehrotra, Jt. President Marketing Textiles - Century Enka Ltd, Member (Nylon Industries), ASFI, India 4. Mr. Chen Xinwei, Chairman of China Chemical Fibers Association, China
16:40 - 16:50	Q&A
16:50 - 17:15	Panel Session Photograph Session Closing of Day 1 Conference and Announcements Pre-Dinner Reception Session --- Joint Meeting of Secretary Generals to finalize: → Joint Communiqué → Media Release / Conference Preparation
18:30 - 20:30	**WELCOME DINNER with The Right Honourable YAB Tuan Chow Kon Yeow, Chief Minister of Penang** • **Opening of the Dinner Ceremony by Malaysia** • **Speech by The Right Honourable YAB Tuan Chow Kon Yeow, Chief Minister of Penang**

CONFERENCE PROGRAM

DATE: 15 MAY 2026, FRIDAY **TIME: 8:30 AM - 20:30 PM**

TIME	PROGRAM
08:30 - 09:00	Arrival of Deletages
09:00 - 09:45	**Special Presentation** **By : Mr. Frédéric Van Houte, Director General of European Man-Made Fibres Association (CIFRS)**
09:45 - 10:10	**Theme Paper 1 : Presentation by Thai Man-Made Fiber Industries Association** **Topic: Roadmap to Carbon Neutrality in the Chemical Fiber Supply Chain** By Mr. Tapankumar Sannigrahi, Head of Sales & Marketing, Indorama Polyester Industries Public Company Limited, Thailand
10:10 - 10:15	Comments by Indonesia and Q&A
10:15 - 10:40	**Theme Paper 2 : Presentation by Association of Synthetic Fibre Industry** **Topic: Powering Integrated Sustainability Ecosystem Through Value Chain Innovation** By Mr. Hemant D. Sharma , President - Polyester, Reliance Industries Limited and President of Association of Synthetic Fibre Industry, India
10:40 - 10:45	Comments by Chinese Taipei and Q&A
10:45 - 11:00	COFFEE BREAK
11:00 - 11:25	**Theme Paper 3 : Presentation by Polyester Staple Fiber Manufacturers Group, Pakistan** **Topic: Sustainability Practices in Chemical Fibers and Textile Manufacturing** By Mr. Rizwan Afzal Chaudhry, Chairman of Polyester Staple Fibre Manufacturers Group, Pakistan
11:25 - 11:30	Comments by China and Q&A
11:30 - 11:55	**Theme Paper 4 : Presentation by Korea Chemical Fibers Association** **Topic: Challenges for the Chemical Fiber Industry in the Era of Climate Crisis** By Mr. Changhun Jeong, Head of Business Policy Office of Korea Chemical Fibers Association, Korea
11:55 - 12:00	Comments by India and Q&A
12:00 - 12:25	**Theme Paper 5 : Presentation by Japan Chemical Fibers Association** **Topic: Future Plans for a Sustainable Chemical Fibers Production and its Supply Chain** By Mr. Akimoto Uchikawa, President of Japan Chemical Fibers Association, President and CEO of Teijin Limited, Japan
12:25 - 12:30	Comments by Thailand and Q&A on Presentation
12:30 - 12:55	**Theme Paper 6 : Presentation by Indonesian Fiber and Filament Yarn Makers Association** **Topic : Sustainability and Its Impact on Fibers Production Costs** By Mr. Basrie Kamba, Advisory Board of Indonesian Fiber and Filament Yarn Makers Association, Indonesia

CONFERENCE PROGRAM

DATE: 15 MAY 2026, FRIDAY **TIME: 8:30 AM - 20:30 PM**

TIME	PROGRAM
12:55 - 13:00	Comments by Pakistan and Q&A
13:00 - 14:30	**LUNCH**
14:30 - 14:55	**Theme Paper 7 : Presentation by Taiwan Man-Made Fiber Industries Association** **Topic: Collaboration and Partnership for a Sustainable Chemical Fibres Industry** By Ms. Gloria Lien, Manager of Far Eastern New Century Corporation, Chinese Taipei
14:55 - 15:00	Comments by Japan and Q&A
15:00 - 15:25	**Theme Paper 8 : Presentation by China Chemical Fibers Association** **Topic: China Chemical Fiber Industry Initiatives in Driving Sustainable Chemical Fibers Supply Chain in The World** By Mr. Li Lingshen, Vice Chairman of China National Textile and Apparel Council, China
15:25 - 15:30	Comments by Indonesia and Q&A
15:30 - 15:55	COFFEE BREAK
15:55 - 16:25	**SPECIAL AGENDA** **"Who Truly Drive Sustainability, or Is It Just Greenwashing ?"** Moderator : Ms. Regina Leong, President of Malaysian Textile Manufacturers Association Panelists: 1. Mr. Rizwan Afzal Chaudhry, Chairman of Polyester Staple Fibre Manufacturers Group, Pakistan 2. Mr. Kenichi Tomiyoshi, Executive Vice President and Director General of Japan Chemical Fibers Association, Japan 3. Mr. R.D. Udeshi, Strategic Advisor - MCPI, Past Longest President of ASFI, Member ASFI, India 4. Mr. Kim Yongtae , Vice President of Nylon Sales, Hyosung TNC headquarters, Korea
16:25 - 16:35	Comments and Q&A
16:35 - 17:00	Comment by Heads of Delegates (or Secretary General) of each Country/Region → Adoption of Joint Communiqué → Concluding Remarks by the Chairman of ACFIF **Acceptance speech by the Host country, Pakistan for the 16th ACFIF Conference** **Closing Ceremony**
17:00 - 17:30	**MEDIA CONFERENCE** Attended by the Chairman of ACFIF and Heads of Delegates
18:00 - 20:30	**FAREWELL DINNER (Hawker-Style Buffet)**

ENGINEERING SUSTAINABLE CHEMISTRY

From Natural To Innovation - Circular Chemistry for the Textile Future

What We Do

Bio-Auxiliaries

We develop special bio-based ingredients that help transform raw fibers into soft, colorful, and high-quality textiles.

Bio-Leather

We also create leather-like materials through fermentation, expanding sustainable material possibilities beyond animal and petroleum sources.

Why We're Different

- Non-Petroleum Based Raw Materials
- Circular & Zero-Discharge
- Recycling Friendly
- Biodegradable
- Lower CO_2 footprint

Our Vision

To build a better textile future through biotechnology — creating biodegradable, non-toxic, and recycling-friendly bio-auxiliaries, and bio-leather made without plastics or petroleum, offering truly sustainable material choices.

GREENING THE SUPPLY CHAIN: SUSTAINABLE PRACTICES FOR THE FUTURE

SPECIAL PRESENTATION

PROFILE OF SPEAKERS

Special Presentation

"Petronas Chemicals Group : Leading Growth in Glycols"

Ms. Nur Fadhlin Ali

Head of Marketing,
PETRONAS Chemicals Marketing Labuan Ltd

Works with PETRONAS since 2008 holding various positions in PETRONAS Chemicals Marketing (Labuan) Limited. Become Head of Marketing of Olefins, Glycols and Derivatives Department in 2024.

Special Presentation

Mr. Frédéric Van Houte

Director General,
European Man-made Fibres Association (CIRFS)

CIRFS
EUROPEAN MAN-MADE FIBRES ASSOCIATION

An accomplished Director General with a multilingual and multicultural background, this senior executive brings more than 29 years of experience in European public affairs. His tenure includes approximately 25 years in association management, specifically leading European trade organizations within the ceramics, glass, man-made fiber, and food packaging sectors.

He possesses extensive expertise in representation, lobbying, and advocacy concerning trade and the internal market. His professional background covers a wide array of critical domains, including legal, economic, and statistical analysis, as well as environmental policy, energy, health and safety, and food contact regulations. Furthermore, he has a proven track record of managing social and technical standards, research and development initiatives, and the international growth of trade associations through engagement with EU and global institutions.

As a polyglot and culturally sensitive international diplomat, he is a senior executive focused on consensus building within international organizations and corporations. He is a self-starter with strong interpersonal skills, capable of performing under pressure and managing complex projects with competing demands. Characterized as an ambitious and creative team leader, he remains flexible, adaptable, and consistently strategy-minded.

GREENING THE SUPPLY CHAIN: SUSTAINABLE PRACTICES FOR THE FUTURE

SPECIAL AGENDA

MODERATORS & PANELISTS

Special Agenda

"Is Recycling the Best Path to a Sustainable Fibers Supply Chain?"

Moderator:
Mr. Gunjan Sharma

CEO of Recron Malaysia Sdn. Bhd.

Gunjan Sharma serves as the Director and Head of Malaysia Operations for Recron and RP Chemicals, both of which are Reliance Group companies. In Malaysia, RP Chemicals and Recron maintain one of the largest integrated operations in the world, spanning from PTA to fabric production.

Gunjan has been with Reliance Industries Limited since February 1995 and has held various leadership roles within the polyester division. Prior to his assignment in Malaysia, he served as the Chief Marketing Officer for Polyesters in Mumbai. Among his various initiatives, he led recycling efforts and established successful B2B2C brands for Reliance's polyester business.

A textile engineer by training, Gunjan also completed a management program at Stanford University. He has traveled extensively and is a passionate tennis player.

Panelists:

Mr. Chen Namchaisiri
Chairman of Thai Man-Made Fiber Industries Association, Thailand

Mr. James Kuo
Chairman of Taiwan Textile Federation, Chinese Taipei

Mr. Sanjay Mehrotra
Jt. President Marketing Textiles - Century Enka Ltd, Member (Nylon Industries), ASFI, India

Mr. Chen Xinwei
Chairman of China Chemical Fibers Association, China

Special Agenda

"Who Truly Drive Sustainability, or Is It Just Greenwashing ?"

Moderator:
Ms. Regina Leong

President of Malaysian Textile Manufacturers Association

Regina Leong serves as the President of the Malaysian Textile Manufacturers Association (MTMA). In this role, she represents the interests of Malaysia's textile and apparel manufacturing industry, working with stakeholders to support the sector's development and address industry-related matters.

Through her leadership in MTMA, she contributes to the association's ongoing efforts in engaging with government bodies, industry players, and international partners.

A daughter of Sabah with profound love for nature, she remains a commited advocate and true believer in sustainability. She actively incorporates recycling and other environmentally practices into her daily life, reflecting personal commitment to caring for the planet.

Panelists:

Mr. Rizwan Afzal Chaudhry
Chairman of Polyester Staple Fibre Manufacturers Group, Pakistan

Mr. Kenichi Tomiyoshi
Executive Vice President &
Director General of Japan Chemical Fibers Association, Japan

Mr. R D Udeshi
Strategic Advisor - MCPI, Past Longest President of ASFI, Member ASFI, India

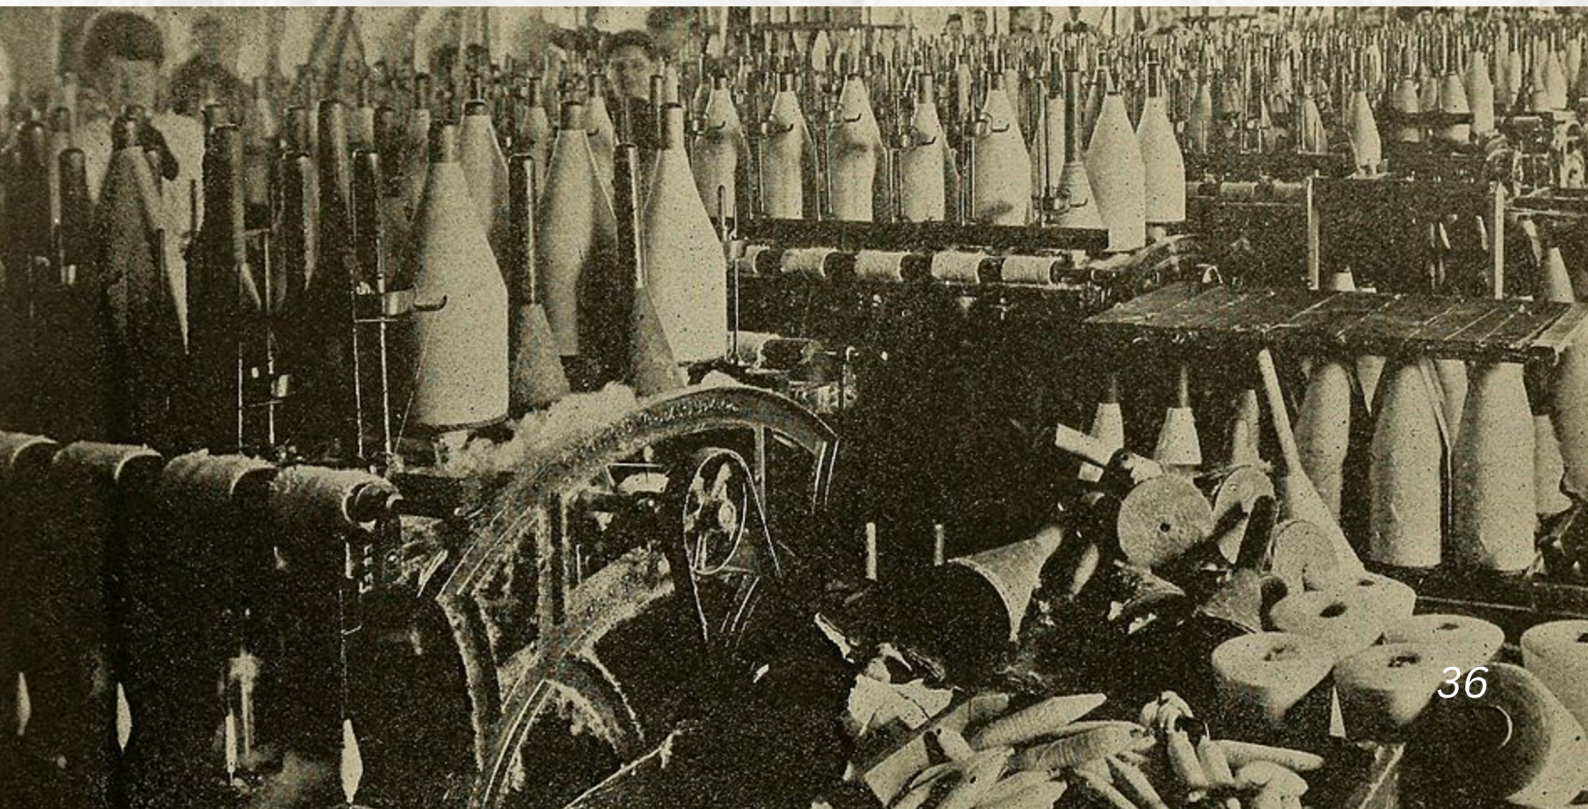
Mr. Kim Yongtae
Vice President of Nylon Sales, Hyosung TNC Headquarters, Korea

About ACFIF

ASIAN CHEMICAL FIBER INDUSTRIES FEDERATION

The Asian Chemical Fiber Industries Federation (ACFIF) was established in 1996, to ensure that representatives of chemical fiber manufacturers in Asia will discuss issues of common concern, to place their future activities on a desirable path toward coexistence and coprosperity, and to make management decisions based on "macro-level" information, eventually leading to the creation of a new friendly and harmonious relationship in the Asian chemical fiber industry.

The ACFIF consists of representative associations from nine countries/region – China, India, Indonesia, Japan, Korea, Malaysia, Pakistan, and Chinese Taipei. The chairman is rotated among the member countries/region alphabetically.



Members of ACFIF

China Chemical Fibers Association (CCFA)

Association of Synthetic Fibre Industry (ASFI)

Indonesia Fiber and Filament Yarn Maker Association (APSyFI)

Japan Chemical Fibers Association (JCFA)

Korea Chemical Fibers Association (KCFA)

Malaysian Textile Manufacturers Association (MTMA)

Polyester Staple Fibre Manufacturers Group (PSFMG)

Taiwan Man-made Fiber Industries Association (TMMFA)

Thai Man-Made Fiber Industries Association (TMFA)

ABOUT

The Malaysian Textile Manufacturers Association (MTMA), established in 1973, is the recognised national representative body for the textile and apparel industry in Malaysia. MTMA brings together the full supply chain, including fiber producers, spinners, weavers, knitters, garment manufacturers, and industrial textile makers, representing MNCs, large local companies, SMEs, and cottage industries. As a central reference point for industry information, MTMA supports members in areas such as trade opportunities, talent development, regulatory matters, and government policies.

MTMA plays an active role in representing and safeguarding the interests of the industry through continuous engagement with the Government and participation in key national committees. The association organises seminars, conferences, training program, and trade promotion activities to strengthen industry capability and competitiveness, while also promoting regional cooperation through Asean Federation of Textile Industries (AFTEX). Since 1990, MTMA has been appointed by MITI as the authorised body to issue and endorse Non-Preferential Certificates of Origin (NPCO) for textile-related products.

ABOUT MATAC

Malaysian Textile and Apparel Centre (MATAC) is a specialised training centre for Textile and Apparel Industry. MATAC was established as a company limited by guarantee on 10 March 1994 with launching grant from the Government of Malaysia (represented by Ministry of International Trade and Industry). It is an organisation dedicated to continuously upgrade the productivity and competitiveness of Textile and Apparel Industry in Malaysia.

The management of MATAC is through the Council and the daily administration is carried out by the Secretariat. The members of the council comprises of representatives from Spinners, Weavers, Knitters, Garment-makers, Industrial Textile Group and Ex-official represented by government ministries and organisations.

MATAC's Objectives

1. To promote and to develop a culture of training in textile and apparel industry
2. To raise the skill level of occupational competence of the workforce

Productivity improvement at all levels are crucial for national development and enhanced competitiveness. Productivity starts at the individual level, through education and training and a creative and innovate mindset. A productivity mindset that is oriented towards the accumulation and utilization of knowledge to enhance productivity needs to be inculcated. MATAC strives to include this productivity mindset by liaising and collaborating with other successful training institutions both local and international.

MATAC Expertise

MATAC provides value added Public and In-House Trainings, Advisory and Consultancy Services in the following areas; Supervisory and Management Skills, Textile Technology, Quality and Productivity Improvement, Sales and Retail Merchandising and other programs related to the industry. In-House training programs offer the advantage of customizing the training to suit the individual needs of a company and trainings are conducted on-site at the factory.

Acknowledgement

On behalf of the 15th ACFIF Conference 2026 Steering and Working Committees, we would like to express our sincere appreciation to the following:

- The Right Honourable YAB Tuan Chow Kon Yeow, Chief Minister of Penang
- The Honourable YB Tuan Steven Sim Chee Keong, Minister of Ministry of Entrepreneur and Cooperatives Development, Malaysia
- The Honourable YB Tuan Sim Tze Tzin, Deputy Minister of Ministry of Investment, Trade and Industry, Malaysia
- His Excellency Mr. Shinya Machida, Consul-General of Japan in Penang
- The Honourable Dato' Seri Lee Teong Li, Chairman, Federation of Malaysian Manufacturers (FMM), Penang Branch
- Chairmen and Members of ACFIF
- Presenters, Speakers, Moderators and Panelists
- Delegates
- Government Agencies and Departments
- Sponsors and Advertisers
- MTMA EXCO and MATAC Council Members
- Distinguished Guests
- Members of the Media

To our valued Sponsors and Partners:

We extend our highest appreciation for your generous support and steadfast commitment to this conference. Your contributions have been pivotal in establishing a platform of distinguished calibre—one that promotes meaningful collaboration, strengthens industry dialogue, and advances innovation across the textile and apparel sector.

Your partnership reflects a shared dedication to progress and a unified vision for the continued development of our industry. We are profoundly grateful for the confidence you have placed in this collective mission and deeply honoured by your involvement in this significant gathering.

This conference stands as a testament to your invaluable support. Your commitment to excellence continues to inspire our community and enhances the overall impact and relevance of this event. We are privileged to acknowledge and celebrate your contributions, and we look forward to sustaining this meaningful partnership as we advance the future of our industry together.

Thank You
